

Open Computing Showcase 2010

Sunday, June 13th

12:00PM – 4:00PM

1647 Hopkins St, Berkeley, CA 94707

- **LEARN** how you can save \$100s with Free Open Source Software (FOSS)
- **MEET EXPERTS** who can help your organization implement and maintain a FOSS network
- **DEMO** new computers with Linux and other FOSS applications pre-installed
- **GET HELP** installing the latest Linux OS
- **FREE Pizza, soft drinks and snacks!**

Are you a computer user frustrated by viruses, malware and expensive software programs? **The Berkeley Linux Users Group** and **ZaReason** have teamed up to present our first **Open Computing Showcase**, a gathering of technology experts, hardware providers and computer users of all ages and levels of experience, sharing information and providing hands-on help.

Want to try Linux and FOSS applications on your existing laptop? Bring it down and our experts will show you how to test Linux on your equipment without affecting your existing data.
